

- Storage account ko secure karne ke tarike
- Private Endpoint
- Encryption - MMK and CMK
- How we can automate end to end infra setup with devsecops best practices?

Git ka main kaam - Files ko track karna... file me kuch changes ho toh unka dhyan rakhna... aur revert karne ki jarurat pade to help karna...

- Install Git, Git clone, Code Movement, added .gitignore, git status, git add., git commit , git push
- Lekin direct main branch me push kar dia..

- Requirement - Ek resource group add karna hai.. Ticket Number - 101
- main branch me policy lgao taki main me koi direct push na kar sake
- main branch se feature branch banao.. feature branch me jo changes karna hai vo karlo.. feature branch me changes karke vo changes push kardo..
- push karne ke baar PR raise karo, feature se main me

- Git ke Interview Sawal
- Requirement - Policy Kaise set karenge?
- Requirement - Ek resource group add kaise karenge best way se?
- Requirement - PR kaise raise karenge, Reviewer kaise set karenge?
- Conflict kya hota hai aur kaise resolve karte hai?
- git pull, git fetch aur git push me kya andar hai
